# CREATE NODE-RED SERVICE
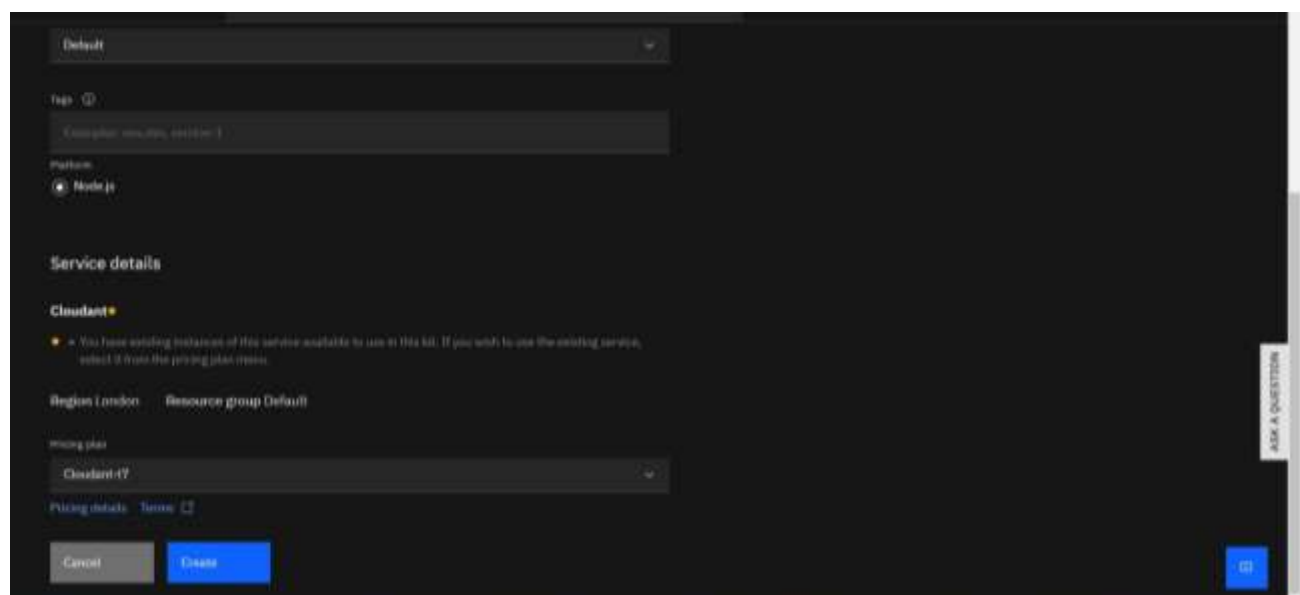

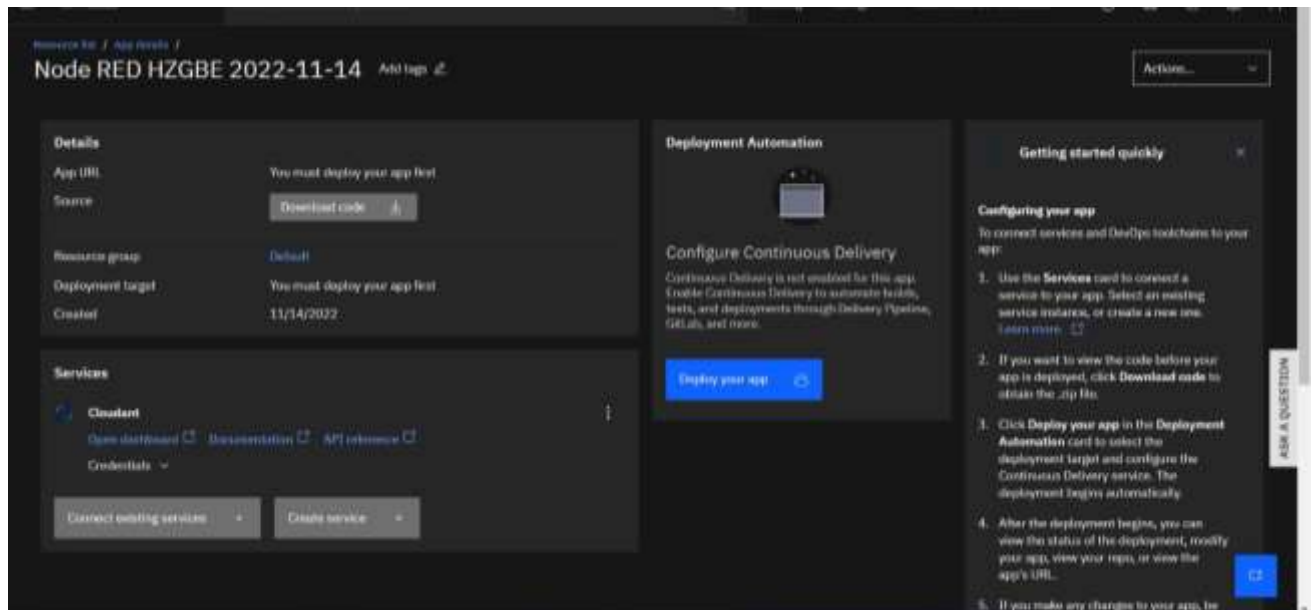

TEAM ID-PNT2022TMID18919

**Steps followed:**

• Navigated to the Appcreation page

• Entered project details and click edon create

- Clicking on the "Deploy your App" Button

- Setting up the environment and deploying the app
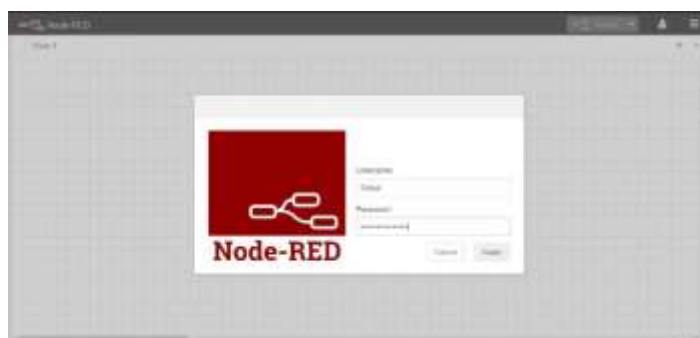

• Successfully deployed the app

• Welcomed by the instance editor
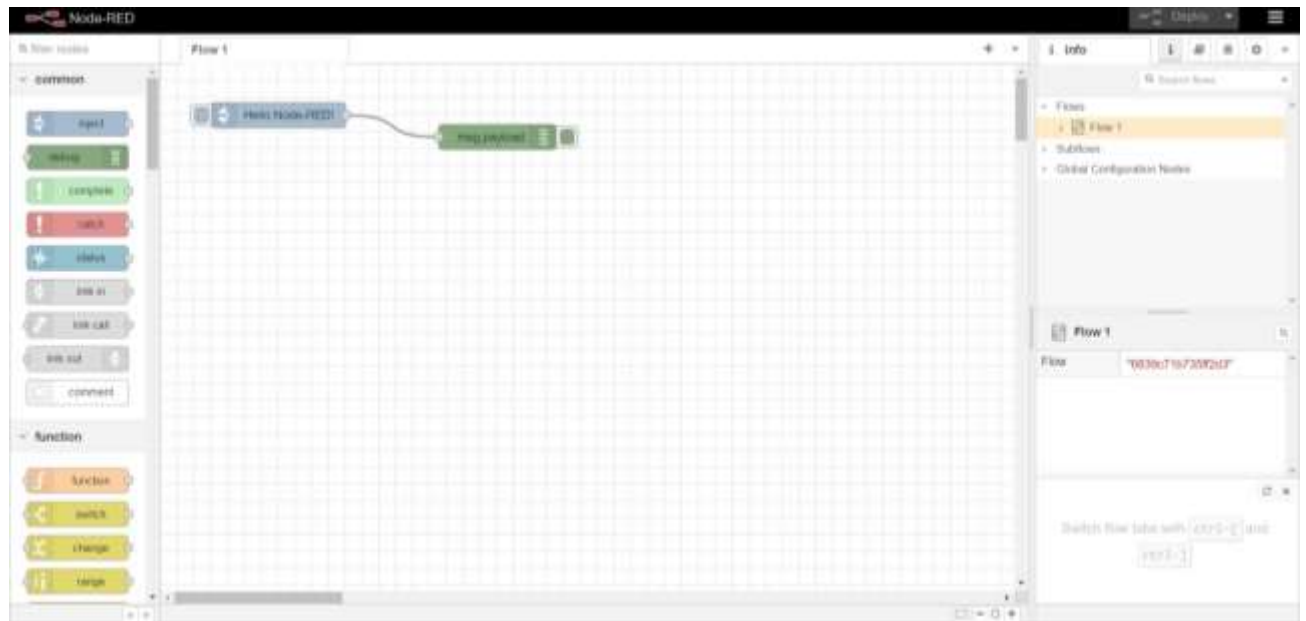

Welcome to your new Node-RED instance on IBM Cloud

We know you're eager to start wiring up your flows, but first there are a couple of tasks you should do:

- Secure your Node-RED editor
- Learn how to install additional nodes

• Setting up credentials

●Dragged and dropped components into the editor

●Editing some values of the properties

● Successfully deployed the app

●Result:
